

PIONEER
PROGRAMS

INFRASTRUCTURE CONTRACTORS

Underwritten by Pioneer Programs

Pioneer Programs now insures contractors involved in the development and maintenance of bridges, tunnels, new highway construction, power plant construction and some roads, depending upon usage while being repaired. We will also consider communications infrastructure contractors on a case-by-case basis.

WHO WE ARE

Since 1990, Pioneer Programs has been a leading risk management and insurance program manager to general contractors and subcontractors through our Contractors' Choice program. We maintain underwriting authority for our insurance companies and work exclusively through wholesale insurance brokers.

WHAT WE OFFER

Our infrastructure program provides the following General Liability (GL) limits:

- Primary GL limits up to \$2m/\$4m/\$2m
- Excess GL limits up to \$10 million
- Self-insured retention negotiated on a risk basis
- Minimum Premium: \$250,000

PROGRAM FEATURES

- Available in all states
- Proven Loss Control services
- Open minded underwriters
- Competitive pricing

RISK MANAGEMENT SERVICES

In addition to our insurance carriers, Pioneer Programs provides an additional layer of risk management oversight through a partnership with a leading construction risk engineering firm. Safety and loss prevention are at the core of our program and results in program stability and consistent pricing for our wholesale brokers and insureds.

We are not a market for every contractor. We provide safety-minded contractors with a long-term solution through loss prevention, peer review, loss control and timely claims resolution.
